

LIBA ALUMNI OF THE MONTH

Konrad Fernandez

I am currently a behavioural consultant at Wipro Technologies. I have worked with several IT companies including Sify Technologies where I managed their Enterprises Business Marketing, and Hexaware where my mandate was global marketing delivery through the central offshore marketing team. To me one of important measures of success is the positive impact I can have on other people's lives. How much have I given of my time, talent, and resources for the benefit of others. As far as my achievements go, my honest answer is that there is no single milestone that really stands out. But if I am to really pick one, it would probably be when I managed the operations for India's first successful online test at Blueshift for the Symbiosis Group.

LIBA had fantastic professors who have made an everlasting impact on my life. Fr. Louis Xavier was certainly a big influence. Another person who comes to mind is Prof. Ranganathan. He amazed me with his infinite patience; the ability to remain 'at center' and completely composed even at the most annoying provocations. His simple manner and humility were utterly endearing. He was a frail little man, but with a big heart and unshakeable character. LIBA remains in my memories, the two years in LIBA went past like a boomerang! It was like hopping on and off a train; the station had arrived much faster than I'd expected. I felt a sudden void knowing it was time to move on. Although a lot of time has passed since I moved out of college, I still carry LIBA in my heart!
