“Every Catholic university, as a university, is an academic community which, in a rigorous and critical fashion, assists in the protection and advancement of human dignity and of a cultural heritage through research, teaching, and various services offered to the local, national, and international communities”

- Pope John Paul II, Ex Corde Ecclesiae

“In Jesuit education, the depth of learning and imagination encompasses and integrates intellectual rigor with reflection on the experience of reality together with the creative imagination to work toward constructing a more humane, just, sustainable, and faith-filled world. The experience of reality includes the broken world, especially the world of the poor, waiting for healing. With this depth, we are also able to recognize God as already at work in our world.”

Loyola Institute of Business Administration (LIBA) had a humble beginning in 1979 with a three-year part-time PGDM programme, mainly to assist those already employed to develop their managerial competency and enhance their knowledge and skills. In 1995, responding to the acute need for top class management professionals in the globalised economy, LIBA started offering a two-year full-time PGDM programme. LIBA, committed to excellence and ethics, is a Jesuit minority institution, owned by the Loyola College Society, Chennai.

- ✓ LIBA works systematically to build world class resources (men, materials and facilities) to enable its students and research scholars to excel in their areas of work.

“Students, in the course of their formation, must let the gritty reality of this world into their lives, so they can learn to feel it, think about it critically, respond to its suffering and engage with it constructively. They should learn to perceive, think, judge, choose and act for the rights of others, especially the disadvantaged and the oppressed.”

By cultivating social relationships with the students, the Faculty Mentor promotes a feeling of solidarity and a sense of commitment to the Institute's objectives and a greater participation in the Institute's activities.

5. Course Design

- 5.1 The Faculty's primary objective is to assist students to develop those skills, qualities and values that make for effective leadership in organisations. Since this involves more than the knowledge of specific theories and models, different learning methods appropriate to the desired skills, such as problem analysis, case studies, simulated games, small group seminars and 'laboratory' exercise are used.

Hence the student's attendance and participation in EVERY class is essential. While classroom interaction aims at developing a wide knowledge base, the student is encouraged to analyse, anticipate, innovate and otherwise prepare himself or herself for a challenging professional career.

The courses are designed taking into account the requirements of employers and the abilities of the students to reach the highest standards. At the beginning of a course, the faculty will give the students in writing the course outline, information about the learning objectives to be achieved, session plan, and how student performance will be evaluated and graded.

For the purpose of facilitating better interaction in the batch and improving the class dynamics, the sections may be shuffled in each term of the first year.

16. Mid-term Feedback and Final Communication of Grades

- 16.1 Faculty will communicate, to the students, the grades of quizzes and short-tests and other assignments normally within 10 (ten) days after the administration of the quiz or test or submission of assignment, as the case may be. In any case, the faculty will give the marks obtained for all components of continuous assessment before the commencement of the end-term examination.
- 16.2 Final grades will be submitted by the faculty to the Dean within ten days after the close of the Term. No change in grade will be allowed, once the grade-sheet is submitted to the Dean. The Dean's office will announce the grades as and when received and the students concerned should promptly check their grades.

17. Examinations

- 17.1 Students must be compulsory bring their ID Card to the examination without fail. Students are allowed to bring into the examination hall only pen, pencil, ruler and calculator. Papers, books or notes are not allowed in the examination hall except when the test is declared as "Open Book". Cell phone is strictly prohibited inside the examination hall.
- 17.2 Any form of communication with another student in the examination hall through exchange of notes, remarks or gestures, or glances at another student's answer paper will be considered as an attempt to cheat, and will be treated as malpractice.
- 17.3 No examinee will be permitted to leave the examination hall without submitting the answer paper to the invigilator.

her, he or she will forfeit the opportunity, and will receive the “F” grade for the missed segment of evaluation for the course.

- 14.12 The end-term grades earned by the students will be communicated to them by the Dean’s office within a reasonable time.

15. Evaluation

- 15.1 Every faculty, while giving the course outline, will indicate his/her criteria for evaluation at the beginning of the Term.
- 15.2 The components for evaluation of a course may, in general, include a combination of quizzes, assignments, term projects, fieldwork, case studies, presentations, class participation, mid-term, and end-term exams, etc. All assignments/term projects/dissertation will be screened for plagiarism before evaluation.
- 15.3 The decision of the faculty regarding grades or any segment of evaluation will be final. A student who needs clarification of one’s grades may discuss with the faculty concerned within a week of receiving the grades.
- 15.4 Request for re-evaluation of examination/term paper is not normally permitted. If deemed necessary by the Dean, the faculty member concerned may be asked by the Dean to re-value the answer book, and submit the revised grade, if any, before the publication of the same by the Dean’s office.

Other workshops may also be offered.

Any workshop conducted for a batch, is compulsory for all the students of that batch.

11. Dissertation

- 11.1 Dissertation is optional. A student can opt for a dissertation in lieu of an elective course (3 credits) in Term VI. However, only those students who secure a minimum CGPA of 6.50 up to Term IV will be eligible to opt for dissertation on a topic of their choice in a related field as applicable.
- 11.2 The dissertation is taken into account for the computation of GPA like any other full credit course, and shall be added to the courses scheduled in Term VI.
- 11.3 Students may directly contact any of the faculty for guidance in the dissertation.
- 11.4 In case the dissertation topic is such that it requires the guidance of a part-time or visiting faculty, as a special case the Dean may permit the student to undertake the study under the guidance of the part-time or visiting faculty.
- 11.5 Where the dissertation topic involves study covering more than one discipline, the student may, with the approval of the primary

guide, opt for a secondary (joint) guide from the relevant discipline. The dissertation will, however, be evaluated by the primary guide in consultation with the joint guide.

- 11.6 Those who do not opt for the dissertation have to do one elective course of 3 credits.

12. Workload and Extra Credit Courses

- 12.1 The workload of a student should not exceed 24 credits in each term.
- 12.2 In the second year, the normal work-load is 21 credits per term. However, a student can be permitted by the Dean to credit one extra elective per term. Grade secured in an extra course will be included in computing GPA and CGPA and the course cannot be dropped later. Extra credit course fee is Rs.2,000/- per course.

Scheduling of Classes

- 12.3 It may so happen that the number of electives offered/opted in a particular term may be much more than the number of sessions that can be scheduled per week. This may require the Institute to take into account the convenience of faculty and the interests of students while scheduling the sessions.
- 12.4 Thus, a few electives may clash with one another in so far as they are scheduled at the same time, i.e., in the same slot. Such an eventuality is likely to cause problems, particularly, if a student opts for both the electives so scheduled in the same slot.
- 12.5 Should a situation of this kind arise, students affected by such slotting will be directed to opt for any other elective(s).

Delay of more than two weeks and up to 3 weeks:
Reduction of three grade points. E.g., from B+ to C

If the delay is more than 3 weeks, the faculty will refuse to accept the assignment, and the student will be awarded the 'I' grade (Incomplete) for that course.

- 14.7 The Faculty will give the students periodic feedback on their performance through comments on the answer papers and through individual meetings.
- 14.8 The decision of the Faculty about the final grade or any segment of evaluation will stand. In an exceptional case the Dean jointly with the Faculty may review it. Their decision will be final.
- 14.9 A student wanting clarification on the grade awarded to him or her for any segment of evaluation or for the course should meet the Faculty concerned within a week of receiving the grade sheet.
- 14.10 Students should not miss any mid-term or end-term test. If a student happens to miss a mid-term test on account of leave of absence with prior permission for a legitimate reason such as a serious illness, it will be his or her responsibility to arrange with the Faculty concerned for a make-up test and to notify the Dean accordingly. He/She must also ensure that the Faculty submits to the Dean's office the grade at an early date, and until this is done, the student's transcript will carry the grade 'I'. Re-exams are discouraged and any make-up tests for Mid-term and End-term exams, even if permitted, will be subject to a down-grading.
- 14.11 If the student fails to avail, within the time specified by the Faculty or Dean, of the facility to make-up the test(s) missed by him or

GRADE	POINTS	SIGNIFICANCE
O	9	Outstanding
A+	8	Very good
A	7	
B+	6	Good
B	5	
C+	4	Average
C	3	
D+	2	Poor
D	1	
F	0	Fail
I		Incomplete

14.5 A student's performance in a term is indicated by the Grade Point Average (GPA), which is derived by averaging the grade points earned by the student in all courses of that term. The cumulative performance of the student in all the terms he or she has completed is shown as the Cumulative Grade Point Average (CGPA).

14.6 The Institute insists on ON-TIME submission of all written reports, project, and other assignments. Late submission is penalised by reduction of grades for that segment as follows:

Delay upto one week: Reduction of one grade point. E.g., from B+ to B

Delay of more than a week but less than two weeks:
Reduction of two grade points. E.g., B+ to C+

Faculty Feedback

12.6 At the end of each term, students are required to fill-up online faculty feedback forms for each course taken during that term and submit the same 2 weeks before the end-term exam week.

12.7 Students not submitting these forms will not be allowed to appear for the end-term exam.

13. Attendance and Leave of Absence

13.1 Attendance on the First day is compulsory for each and every term.

13.2 The Institute requires of every student punctual and regular attendance at ALL class sessions, as an important part of the training of a manager to a sense of duty and personal responsibility. **Absence from class may mean the loss of grade points.**

13.3 The faculty will be free to adopt any measure to regulate attendance, penalise absence, and ensure smooth and undisturbed learning in the class.

13.4 Students should keep in mind that the final grade assigned to them for a course takes into account their class participation. They should, therefore, make it a point to come to class duly prepared, and not to miss any class.

13.5 The Faculty will keep a written record of the attendance in every class session, and this will be filed in the Dean's office at the end of the Term.

- 13.6 Absence without leave is considered a serious breach of discipline, and the student is liable to disciplinary action. Further, the student will not be allowed to make up any segment of evaluation he or she may have missed due to absence without leave.
- 13.7 The Dean and the concerned faculty must be informed in case a student is absent from class due to illness, or for any grave reason, or due to special circumstances. Even in such cases, if the absence extends to 50 percent of the classes in three or more courses, he or she will be required to repeat the term of the year.
- 13.8 However, the Dean in consultation with the Director, may use discretion in permitting the student to complete the course in the same term, if convinced that the student's reasons for absence were genuine and unavoidable, and that the student will be able to complete the course successfully.
- 13.9 For unavoidable absence as mentioned in section 13.8, the student should submit a written application to the Dean in which he or she should give the names of the Faculty whose classes he or she will miss, so that the Faculty can be informed by the Dean's office.
- 13.10 Faculty are not responsible if the student loses any segment of evaluation on account of absence from class even with prior permission, and the make-up of any test missed due to absence with prior permission is left entirely to the discretion of the concerned Faculty.

14. The Grading System

- 14.1 The primary objective of the Institute's grading system is to motivate all students to excellence. We seek to achieve this objective by keeping all the students continually informed of their performance in relation to the required and expected standards. Apart from the end-term examination, a student's performance is continuously assessed on the basis of class participation, presentations, case studies, term papers, mid-term test, surprise quizzes, etc. The grading synthesizes on a nine-point scale through continuous assessment system.
- 14.2 Each Faculty evolves his or her criteria for grading student performance, which is appropriate for the course he or she teaches. The criteria will be announced to the students at the beginning of the course to enable them to plan their work accordingly.
- 14.3 In general, the grade represents the student's combined performance in quizzes, assignments, reports, projects, fieldwork, class participation, mid-term, end-term test, etc.
- 14.4 The grading follows a system of nine points. The point value of the grades and their significance is as follows.
