FINANCIAL MANAGEMENT

Finance remains the bottom-line of every decision in the corporate sector. Given its centrality, efficient financial management within the contours of accounting procedures and compliance requirements determines not just the success a corporate entity but also the economic development in general. In today's business environment, effective financial management goes far beyond the knowledge of accountancy. It demands a clear understanding of financial markets, portfolio management, and taxation processes and other statutory and corporate requirements.

The Programme leading to the Executive Diploma in Financial Management aims to equip financial managers, business executives, and other aspirants with financial orientation with all the nuances associated with the techniques and procedures of financial management
